AI BUILDERS LAB 2027

Open International Cohort · High school students · The best summer ever, built with AI

DATES
July 4 – 17, 2027
2 weeks

LOCATION
Berkeley + Silicon Valley, California

PROGRAM FEE
$5,000 USD

INCLUDES
University dorm, breakfast, lunch & dinner, materials, 48 hrs of instruction, company visits*, SF sightseeing

About the program

AI Builders Lab is a two-week summer program in Berkeley, California for high school students who don't just want to use AI, but want to build with it. You'll work side by side with an international cohort of up to 50 students.

What you'll do

Take your own idea from problem to pitch: hands-on prompting, product development, a real Product Requirements Document (PRD) and a final **AI Action Plan** you present on the last day.

Your faculty

Jeff Eyet, Lecturer at UC Berkeley Haas.

Beyond the classroom

Silicon Valley company visits* and San Francisco sightseeing: Golden Gate Bridge, Chinatown and Sausalito.

How to apply

01 · Submit your application on the program site.

02 · Upload your materials: proof of English proficiency, academic transcript, personal essay and two letters of recommendation.

03 · Application review. Deadline: **December 1, 2026**.

04 · Admission decision released **December 15, 2026**.

05 · Confirm your spot: accept your offer and pay the **$500 USD deposit** by **December 18, 2026**.

Submitting an application does not guarantee acceptance. Payment happens only after acceptance.

INFO SESSION

Thursday, November 19, 2026 · 5:00 PM Mexico Central Time

REGISTER FOR THE SESSION: tinyurl.com/nov19-ai27

*Companies may vary. Flights not included. No academic credit.

HOW THE TWO WEEKS WORK

DAYS	BLOCK	WHAT YOU DO
WEEK 1	**Foundation & Application**	
1–2	**AI Evolution & Strategic Frameworks**	Learn how AI got here and pick a real problem you want to solve.
3–4	**Hands-on Prompting & Product Development**	Experiment with prompts and turn your idea into a product.
5	**PRD Workshop & Peer Review**	Write your Product Requirements Document and trade feedback with your team.
WEEK 2	**Implementation & Leadership**	
6–7	**Leadership Strategies & Change Management**	Learn how to lead a project and get people on board with new ideas.
8–9	**Business Model Innovation & Ethics**	Figure out how your idea creates value and how to use AI responsibly.
10	**Action Plan Presentations & Future Outlook**	Pitch your AI Action Plan and celebrate with your cohort.

Your summer, all in one place

48 hours of instruction
Full-day, hands-on workshops.

Silicon Valley visits*
See how tech companies work.

San Francisco
Golden Gate Bridge, Chinatown, Sausalito.

University dorm
Live with your cohort.

All meals
Breakfast, lunch and dinner.

You go home with
Your PRD and AI Action Plan.
